Some useful information - and as an Irish person it is nice to read something in this area that is directed towards the Irish educational system and Irish conventions. This book has been an invaluable resource in starting a conversation with my son around career choice. The range of experience of the contributors, the activities and down to earth way it is written really appealed to my son and I. It helps parents understand the education system, gives an overview of the options post Leaving Certificate and doesn't concentrate only on points and college. I've learned so much already in the short time I have it.
