Good book, interesting and well written, clear and full of information, my only remark is that is strictly U.S. based, so if you are not american some opportunities aren't possible.  
Bel libro, interessante, ben scritto, chiaro e pieno di informazioni, l'unico appunto che mi sento di fargli che talmente centrato sugli Stati Uniti che alcune cose si possono fare solo se uno americano.

I haven't read all of it, but I'm an English major who's starting her first year in college, and even though I know that I love reading, and writing, and all things bookworm-ish, that doesn't really help me know what to do with that. So this book was helpful in giving me a few ideas that I could consider and talk with my advisor about. I'd recommend it to anyone who's maybe a little confused about what they can do with their bookworm tendencies.
