Jan Goldberg : Careers for Extroverts Other Gregarious Types (Careers for You Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Careers for Extroverts Other Gregarious Types (Careers for You Series):

0 of 0 people found the following review helpful. Too BasicBy FTCThis book was just ok. It basically includes only a handful of careers extroverts can pursue, such as music and dancing, acting, sales, politicians, advertising/marketing,

politics/fundraising and public relations. I think the most helpful parts were the inclusion of pay ranges, as well as anecdotes from successful persons within each field. I felt it could've included more career choices. I suppose the careers in marketing and public relations were the most appealing. I wouldn't recommend it as it was only marginally helpful.
