Paul Plawin : Careers for Travel Buffs and Other Restless Types (Vgm Careers for You Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Careers for Travel Buffs and Other Restless Types (Vgm Careers for You Series):

40 of 44 people found the following review helpful. Not Very GoodBy T. JacksonThis book isn't very helpful or

enjoyable to read. The author comes across as a VERY macho, traditional male and his personality comes across very strongly in the writing. As I am not this type of person, it was a huge turn off for me. The book is not much more than a brief skimming of careers and some pep talk advice, like "you have to work hard to get what you want." You can get the much of this info from an internet search or a visit to a career counselor. There were a few useful tidbits of info. I learned my dream of being a travel writer isn't likely to happen and wouldn't pay well anyway. Don't waste your time and money. 4 of 4 people found the following review helpful. Nothing you can't read on the internet. By addict This book is nothing more than a few paragraphs about several "travel-related" careers. It contains no information that you couldn't read for free on the internet. He doesn't list any truly unusual travel careers, but focuses on standards like becoming a travel agent, foreign service officer, joining the military, working on a cruise ship, etc. I checked it out from my local e-Library, and I'm so glad I didn't pay for this book.

Describes careers and fields that involve extensive amounts of travel, including sales, public relations, the foreign service, travel agencies, trucking, travel writing, the military, and tourism.

From School Library Journal YA-- Two practical, informative guides that provide job descriptions, approximate salaries, promotion opportunities, and addresses for more information in a readable, entertaining fashion. One particularly helpful subsection in each chapter of Plawin's work is entitled, "The Daily Routine." The conclusion in each book is similar, providing realistic insights into the actual job hunt, although Seelye's description is more comprehensive. Copyright 1992 Cahners Business Information, Inc. From the Back Cover Careers for Travel Buffs Other Restless Types Do you have a near-fatal case of wanderlust? Do you know the longitude and latitude for Bora Bora?
