Stephen Brumwell, W.A. Speck : Cassell's Companion to Eighteenth Century Britain before purchasing it in order to gage whether or not it would be worth my time, and all praised Cassell's Companion to Eighteenth Century Britain:

From the "Glorious Revolution" to victory at Waterloo: every aspect of British history during the pivotal period between 1688 and 1815 comes into fascinating focus in a series of detailed essays and quick-reference entries. Check the facts on politicians such as Walpole and Charles James Fox, and then find out about the electoral system as a whole. Pinpoint the period's best architects, and learn about the aristocracy, agriculture, authors, inventors, castles, censorship, clergymen, generals, and the American War of Independence.

About the Author Professor W. A. Speck is an Emeritus Fellow of the University of Leeds and the author of numerous books on the 18th century; Dr Steve Brumwell is the author of *Redcoats. The British Soldier and War in the Americas* and is writing a biography of General Wolfe. The series editor is Professor Derek Beales of Sidney Sussex College, Cambridge.
