J Green : Chambers Slang Dictionary before purchasing it in order to gage whether or not it would be worth my time, and all praised Chambers Slang Dictionary:

0 of 0 people found the following review helpful. Brilliant Resource for Historical FictionBy Eric Alan WestfallI'm in the process of writing a novel set in Victorian England (an MM romance), and I have two more in the works for Regency England. This book is an incredible resource for anyone writing any type of historical novel. Granted, you have to know the slang expression first, but when you check it, you find out when/where it was first used, and thus

whether it works for the period you're writing about. It's well worth the money for anyone writing historical fiction, of any type. 1 of 1 people found the following review helpful. Five Stars
By Starglade
Well worth the money and a fraction of the cost of Green's 2010 three - volume opus.

Chambers Slang Dictionary is a brand-new edition of Jonathon Green's magisterial slang dictionary, first published in 1998. Covering the full range of slang over five centuries and from all parts of the English-speaking world, this collection has won universal acclaim for both its scholarly credentials and for the sheer delight that only a big book full of dirty words can hold. This new edition, the first to be published by Chambers, retains all the verve and precision of the earlier work, and been completely overhauled and restructured to make it as easy as possible to find what you're looking for. Anyone interested in the steamier side of language will experience hours of pure joy exploring the vast wealth of Chambers Slang Dictionary and plumbing the depths of centuries of slang.
