**Kathryn Livingston : Chic Simple: Bedlinens** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Chic Simple: Bedlinens:

0 of 0 people found the following review helpful. A lot of style in a small package By P. PARSON These are just lovely little books. I have at least five of them. Photos are beautiful. The little bits of trivia are fun and enlightening. Bedlinens is about a small hardback book, about 4in square, so it takes little space. Most in the series are these little books. I like them by my bedside, where I can page through them so a few ideas before I drop off to sleep.

A compact guide to shopping for stylish bedlinens, offering practical information, with advice concerning economy, simplicity and environmental awareness. This is one of the small format titles in the "Chic Simple" series of guides to living in the 90s.
