Big Stick Inc. : Chicago Neighborhood Map Second Edition (Maps Atlases) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Chicago Neighborhood Map Second Edition (Maps Atlases):

This will be the 2nd year we are auctioning this poster, and it always draws a nice response. As others have stated in their reviews, if you are a fan of Chicago, or are new to Chicago, understanding the Neighborhoods is important. The only con is that the poster size is unusual. Luckily, one of my coworkers is handy with framing. She was able to frame it and have it look professionally done. Keep in mind that if you'd like to mount this on the wall but don't trust yourself to custom frame it, you will have to pay extra to get it done. 1 of 1 people found

the following review helpful. Great map, great history, great decorBy Sarah HThis map is exactly how it is described and even better print quality than I expected. The map is hand-written, so don't expect to have the neighborhood names printed/typed. The handwriting adds to the vintage feel and charm though and gives the poster character. It is the perfect piece to decorate with if you love Chicago and want to represent the city's uniqueness in your home.Four stars were given because the poster is an odd size and will require custom framing. A regular poster frame will not fit this image (not even close), so be prepared for an additional cost of custom framing should you choose to frame the poster.0 of 0 people found the following review helpful. GREAT MAP!By Sam M.This map is wonderful! It has all the neighborhoods and has a cool old timely feel. I gave it to one of my friends who is a Chicago native and he absolutely loved it. He got it framed in a black frame and the colors really contrast well with the frame.I want to buy another one for me!I wish it was a little cheaper though--I'm a student. But in the end, well worth it.

Nobody ever detailed the boundaries of Chicago's neighborhoods until Big Stick. Our Son of the original Chicago Neighborhood Map has been revised, updated, and remarkably illustrated with a new total of 222 neighborhoods; making it now, indeed, more neighborly than ever. Up until 2001, this is the most thorough and comprehensive work ever done on neighborhood boundaries in Chicago history, neighbor.
