I can see this being a great gift to a girlfriend who has been riding out a streak of misfortune in the dating world. I would make sure, though, that if you are getting this for a gift, the lady it's intended for has a good sense of humor. The description of the guys is really stereotypical and not to be taken

seriously. Some of them are pretty silly, but there are a few that are genuinely witty and made me giggle. As you go through the pages, you will probably realize that specific men come to mind as you read the descriptions which is funny in itself. This is a book that makes fun of the most common negative male archetypes. Even if you aren't really into the descriptions, the pages are nice to color, and don't really have much to do with the words. They are mostly intricate nature scenes. The book itself is 8.5 by 11 inches in size, and the cover is made of a fairly thick cardstock paper, with a nice suede finish. The pages aren't made to be torn out, so it can at times be a little difficult to color certain aspects of the page while in the book. I recommend this book to anyone who wants to sit back, relax and unwind with a mindless, slightly amusing task. I received this product at a discount in exchange for an honest review. 1 of 2 people found the following review helpful. Coloring must have for the dating world. By Brittany Chick. This dictionary is full of a single girl's must-haves on all you need to know about men and those you may come across in the dating world. Each page is full of one-sided definitions of each kind of man you may find: the player, well-dressed, prep, and even if you're lucky, the one. Every page has different well-designed sayings that correspond with each one. What I love about this book is that it does not matter if you're currently single or married, everyone will relate to this book in some way. You will find a page or maybe even several and think, "Yep!" "Mhm.. oh so true" or "If I had just known." etc. This would be a great gift for any single girl you know who loves to color or maybe even just is trying to get over a breakup. The definitions of each are just down-right truthful, but oh so funny! I'm personally happily married to "The One" but even I have found at least one page from when I was dating someone else that I thought, "Bingo, yep there he is!" I received this as part of a preferred review program for possible testing and an honest unbiased review. 0 of 0 people found the following review helpful. Five Stars. By Lolo. My sis loves it.
