By robert bogart This book is one of my 10 yr old grandson's favorites. His original copy got destroyed (by me, oops), so I had to replace it. He is very happy again. Thanks for being there in time of crisis.

By RetiredBirder Another great book by Parragon. I had to re-order with Friendly Books as first vendor of used books sent a badly damaged used book, described as very good.

Learn all about the world's oceans with this fun, brightly colored volume packed with facts and photographs! A fantastic tour of the underwater world, this book features easy-to-understand information about ocean life including plants, animals, and factual overviews. This encyclopedia is a wonderful way to get early learners engaged in looking

up information, and it makes a great addition to any children's library. Complete with fantastic lenticular cover.
