National Geographic Maps - Adventure : China East (National Geographic Adventure Map) before purchasing it in order to gauge whether or not it would be worth my time, and all praised China East (National Geographic Adventure Map):

1 of 1 people found the following review helpful. will work for what wanted it for By DNice map and did cover the areas will travel to and shows the roads and major cities. Was hard to tell thought if china east would cover all spots - but it did. Only thing (may be positive to others) is the water proof like finish - harder to write on it which was what I wanted to do - but did hold a highlight pen so works - also liked it had some (not all) of the places of interest you may want to see - it had more information in nice format than lonely planet travel book (which also phonetically spelled the names so didn't coincide with this map but figured it out). Yes glad I bought it! 1 of 1 people found the following review helpful. Great Map, but more than I really needed. By CustomerGreat map, but for me, and probably most travelers, the "East China" one was sufficient. I had both and only used the "East China" one while in China, but did consult this one before the trip. 2 of 2 people found the following review helpful. Did the Job By HowardIt did the job perfectly. I needed to see the western part of southern China. One I figured out (not so easily) that the East China map was the map for southwestern China, it gave me the detail around the city of Kunming and the small roads to the northeast of that city that I need to see. It also is very good quality and doesn't tear, but I can write on it.

Waterproof Tear-Resistant Travel MapThe most populous country in the world and one of the cradles of civilization, China is a leading destination for global travelers. National Geographic's East China Adventure Map will lead you not only on your exploration of famous cities like Beijing, Shanghai and Guangzhou but also as you travel to hundreds of natural, cultural or historical points of interest, including those away from major tourist hubs. The eastern half of the country includes the most heavily populated areas, including all of the megacities. Also covered are the Yellow, East China and South China Seas; the islands of Taiwan, Hong Kong and Macao; and the entire Korean Peninsula. Find your destination with the user-friendly index of cities and towns or look for pinpointed areas of interest like national parks and preserves, beaches, ski areas, caves, archeological sites and Buddhist Temples. Among the World Heritage Sites in the area are the Great Wall, Terracotta Warriors, Forbidden City, Mount Tai and South China Karst. Navigate the country using the mapped road network, showing motorways, major and secondary roads complete with distance markers. Get to hidden gems in rural areas with the help of smaller roads, railroads and ferries. The map is the perfect complement to National Geographic's China Traveler's Guide or any other guidebook to the area. Adventurers seeking a map covering China in totality may prefer National Geographic's China Adventure Map. Every Adventure Map is printed on durable synthetic paper, making them waterproof, tear-resistant and tough capable of withstanding the rigors of international travel. Map Scale = 1:2,950,000 Sheet Size = 25.5" x 37.75" Folded Size = 4.25" x 9.25"

About the AuthorFounded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
