National Geographic Maps - Adventure : China (National Geographic Adventure Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised China (National Geographic Adventure Map):

1 of 1 people found the following review helpful. will work for what wanted it forBy DNice map and did cover the areas will travel to and shows the roads and major cities. Was hard to tell thought if china east would cover all spots - but it did. Only thing (may be positive to others) is the water proof like finish - harder to write on it which was what I wanted to do - but did hold a highlight pen so works - also liked it had some (not all) of the places of interest you may want to see - it had more information in nice format than lonely planet travel book (which also phonetically spelled the names so didn't coincide with this map but figured it out). Yes glad I bought it!1 of 1 people found the following review helpful. Great Map, but more than I really needed.By CustomerGreat map, but for me, and probably most travelers, the "East China" one was sufficient. I had both and only used the "East China" one while in China, but did consult this one before the trip.2 of 2 people found the following review helpful. Did the JobBy HowardIt did the job perfectly. I needed to see the western part of southern China. One I figured out (not so easily) that the East China map was the map for southwestern China, it gave me the detail around the city of Kunming and the small roads to the northeast of that city that I need to see. It also is very good quality and doesn't tear, but I can write on it.

Waterproof Tear-Resistant Travel MapThe most populous country in the world and one of the cradles of civilization, China is a leading destination for global travelers. National Geographic's China Adventure Map will lead you not only on your exploration of famous cities like Beijing, Shanghai and Guangzhou but also as you travel to rural areas looking for hidden gems like parks, mountains and lakes. This expertly researched map covers the diverse country in its entirety and its international borders with 14 sovereign states; the Yellow, East China and South China Seas; the islands of Taiwan, Hong Kong and Macao; and the entire Korean Peninsula. Find your destination with the user-friendly index of cities and towns or look for hundreds of labeled natural, cultural or historical points of interest like national parks and preserves, beaches, ski areas, archeological sites, Buddhist Temples, UNESCO World Heritage sites and sections of the Great Wall. Navigate the country using the mapped road network, showing motorways, major and secondary roads complete with distance markers. Alternative transportation like trains and ferries will help you get off the beaten path. With such an abundance of specialized detail, the map is the perfect complement to National Geographic's China Traveler's Guide or any other guidebook to the area. Adventurers seeking more detail about a specific part of China may opt for National Geographic's East China or West China Adventure Map. Every Adventure Map is printed on durable synthetic paper, making them waterproof, tear-resistant and tough capable of withstanding the rigors of international travel.
