Arco : Civil Service Arithmetic Vocab, 15 E (Arco Civil Service Arithmetic Vocabulary) before purchasing it in order to gage whether or not it would be worth my time, and all praised Civil Service Arithmetic Vocab, 15 E (Arco Civil Service Arithmetic Vocabulary):

2 of 2 people found the following review helpful. Great investmentBy XG1994This book helped me prepare for a firefighter position in Grand Rapids, MI. I studied this book everyday and saw some questions on the civil service test that seemed to be directly from the book! I passed the written test, completed the hiring process, and was offered a position. I couldn't have done it without this book. Get the book. Spend the time learning the material, and you should pass your test.1 of 1 people found the following review helpful. I wish I would have brought this before I tested.By Chevymom53I would recommend that you high light all the answers, no use memorizing or reading stuff that is wrong. I read it all and picked out the words and flunked my first test, never again. Only read the write answers. Only

thing is people like taking the tests and seeing what they do on it, not me! I have a hard time studying and remembering as it is, so I will highlight all the answers. Good book thro.0 of 0 people found the following review helpful. Enjoying this Book!By Tippin FanGreat Service! Fast delivery. I'm enjoying the book that I purchased. EXCELLENT!!!

A crucial step in getting a civil service job is a great score on the entry-level civil service exam. Basic math and English usage are two skill areas where many test-takers could use the most help. Detailed subject review and up-to-date practice material make this self-tutorial the first choice for job seekers looking for work with federal, state, local, and municipal governments.

From the PublisherFEATURES AND BENEFITS -Two mini math tests -In-depth skill reviews of all relevant math and verbal concepts -Vocabulary-building exercises -Tips and advice for finding a government job -A list of over 1,300 words that may appear on the test
