**Robert Prescott Walker : Collecting Moorcroft Pottery** before purchasing it in order to gage whether or not it would be worth my time, and all praised Collecting Moorcroft Pottery:

6 of 6 people found the following review helpful. "Collecting Moorcroft Pottery" by Robert Prescott WalkerBy "lovemybooks"Even if you never actually buy Moorcroft pottery, this is a lovely book full of illustrations in full colour covering the heyday of the development of Moorcroft Pottery. Best of all, if you are a collector, modest or otherwise, this book details prices and potters marks, deciphering them, so that buyers can be aware of what they are actually purchasing. The text is also an easy and informative read and certainly built on my own knowledge of this beautiful art

form. I do recommend this book heartedly to all those who love Moorcroft pottery for whatever reason and I hope that Robert Prescott Walker follows up with another book detailing Moorcroft from where this book left off!

The current resurgence of interest in Moorcroft both old and new is perhaps indicative of general international interest and indeed a revival in things floral and colourful, reflecting home furnishing trends.
