**Wendy S. Enlow : College Grad Resumes to Land \$75,000+ Jobs: Great Resumes to Fast Track your Career** before purchasing it in order to gage whether or not it would be worth my time, and all praised College Grad Resumes to Land \$75,000+ Jobs: Great Resumes to Fast Track your Career:

1 of 1 people found the following review helpful. Its OKBy C. DrouganisIt is an adequate book on resume writing. My biggest concern with the book was that the sample resumes were not related to higher paying careers. I was expecting to see a few more technical (Engineering) Resume examples for recent graduates. Instead its just a potpourri of jobs, although they are nice sample resumes.The quality of the resume samples is of course better than other resume writing books. Which is where I would give this book the most credit.There is really nothing about writing cover letters which I found to be a bit of a disappointment.The book is showing its age, so perhaps it would just be best to pass on this title

and find something a bit more recent.

This unique resume book includes 80 examples of resumes written by college students who actually obtained \$75,000+ jobs in a variety of occupational fields. The book also includes sound resume writing advice based on the secrets of professional resume writers.

"Simply put...the very best college resume book I've ever read!" -- Shelly Goldman, President, The Goldman Group Advantage  
"This is your ticket to a higher paying job. EVERY graduating student should own this book!" -- Susan Britton Whitcomb, Executive Director, Career Masters Institute
