it. Easter is coming, will the COBUILD To Go Mobile Application come with an easter egg?!!!Updates on May11:--I contacted publisher directly and they gave me the access code after showing them this order. The dictionary is great, the App is not as good as my expectation, I even cannot find the word "allocate" from this mobile application. This mobile APP is only about 16M. Anyway, mobile app is a bonus, better than nothing. I would suggest the seller to check their products before packing, do not waste customers' time and let them do bug fixing for seller. Thanks to publisher.1 of 1 people found the following review helpful. Where is the mobile app???By MikanThe actual dictionary is quite good, not only for beginners but for advanced (my daughter attends a public High school in California and finds it useful for her English assignments) learners.One thing I am unhappy about is the lack of information regarding the mobile app and I just can't figure out how to install it. I appreciate it if anyone could point me to the right direction.1 of 1 people found the following review helpful. good dictionaryBy julio melendrezGood dictionary, compete definitions, with good examples in how to use the word.i would recomended to my friends and relatives.

With innovations such as DefinitionsPLUS and vocabulary builders, the Collins COBUILD Advanced Dictionary of American English transforms the learner's dictionary from an occasional reference into the ultimate resource and must-have dictionary for language learners. The definitions have been created using a controlled vocabulary, and each definition has been reviewed by a team of classroom teachers to ensure that they are appropriate for learners at the intermediate level.

About the AuthorThrough a collaborative initiative, Collins COBUILD and National Geographic Learning are co-publishing a dynamic new line of learners' dictionaries offering unparalleled pedagogy and learners resources. The first Collins COBUILD dictionary was published in 1987, thanks in part to John Sinclair, one of the very first modern corpus linguists who personally oversaw the creation of the Bank of English(TM). Every COBUILD dictionary is based on the Bank of English(TM), a huge electronic database of both written and spoken language, which today contains over 650 million words.
