**HarperCollins Publishers Ltd. : Collins Portuguese Dictionary and Grammar** before purchasing it in order to  
gauge whether or not it would be worth my time, and all praised Collins Portuguese Dictionary and Grammar:

2 of 2 people found the following review helpful. It is very good and helpfulBy Ian RayThis book met my  
expectations. It is very good and helpful. At the beginning there is a small section on English, Portuguese and  
Brazilian pronunciation and spelling, and in the middle there is a large comprehensive section on English and

Portuguese grammar which I liked. In the English and Portuguese Word sections there are almost an equal amount of words and each word has its type so you know clearly how to use them. 2 of 2 people found the following review helpful. Five Stars By Stuart Graham Excellent 0 of 0 people found the following review helpful. I returned this book as it did not have the European Portuguese pronunciations alongside the words. By Customer The description of the book led me to believe that it would have European Portuguese pronunciations, which it did not. This appears to be a wonderful dictionary if you are using it to learn Brazilian as all the given pronunciations are in Brazilian.
