0 of 0 people found the following review helpful. pocket dictionary better than a phrase bookBy E. HamiltonThis is my travel "bible." Initially i searched for phrase books to help with local slang, but this dictionary actually has more content and more accuracy than most phrase books. Looking up one word does not only give a single translation, but a whole list of unique applications for it as well. It has been extremely helpful to me in many travel situations and for \$5-10, I would recommend it to ANYONE traveling.0 of 0 people found the following review helpful. Very helpfulBy NikoThis is a small, yet concise dictionary that is easy to carry. It is easy to read and to understand and contains a sufficient amount of words.I liked the commonly used phrases included, also. This will be a very useful book. Thank you for your product!
