I didn't realize that this was published by a Scottish ...By Jo HI didn't realize that this was published by a Scottish publisher and everything in this atlas is based on European measurements and wording. Print is exceptionally small and even with a magnifying glass, difficult to read. Some of writing is written under border markings of various countries. Larger countries and continents are cut in portions to fit pages, which I can appreciate because measurement of atlas is only 12.5 inch long by 9.25 in wide. Yet smaller countries/islands are kept reduced in size. Would prefer larger book with more pages and improved content. 1 of 1 people found the following review helpful. This a perfect World Atlas Book I was looking for. By Marciano

Herrera This a perfect World Atlas Book I was looking for. My 9-year old son loves to see maps, I have a World Atlas by National Geographic but it weights so much and its to big for him (20x24 inches). This Collins World Atlas book is better for him and for all of us.. With this version he finally is comfortable using it. Quality is good and price is excellent!! I love it. 4 of 4 people found the following review helpful. Find another Atlas with Larger Fonts By Dr. Dahk Knox
Fonts were way too small and I couldn't hardly read anything.

This great value contains all the world maps you need in a budget atlas, for family, study and business use. It offers fully revised, detailed reference maps of the world; a map of the world's countries and physical features; an introductory section with facts on all the countries of the world, including flags, area, population, capital city, languages, religions and currency; a map of the world s time zones; and over 10,000 index entries."
