2 of 2 people found the following review helpful. some great info BUT.....By CRCsome great verbs and expressions, but there are lots of repeated terms in the book and the fonts are all over the place, even on the same page! And there quite a few words/verbs/expressions with absolutely NO translations. The field box where they should be is totally blank. It's obviously an e-book that's been poorly rendered into a hard copy book. Handy enough, but the quality is low.0 of 0 people found the following review helpful.
