No enlargements for Bogota, Cartagena, Medellin areas!! Really? This would have been so much more valuable than the lovely nature photos. Especially since this is a MAP3 of 3 people found the following review helpful. Could be better

This map is decent, especially when compared to the maps in the Colombia guidebooks that are out there. It would be nice if the photos were removed (there are many) and more detailed map insets of major cities were included instead. Be aware that this map will not give you a good sense of how windy the roads are or the time it takes to get from one place to another. I used this map on a recent trip to Colombia and it was nice to have to supplement two separate guidebooks, but it was still not great. I found myself accessing Google Earth when wifi was available more than turning to this map.

May need some revisions especially regarding the roads in the mountains. Colombia has invested a lot in its roads. Some of the roads indicated as dirt or third class roads on the map were actually very good paved roads. Otherwise, a very good overall map. We found it quite useful for driving around the country.

Waterproof Tear-Resistant Travel Map
Let National Geographic's Colombia Adventure Map guide you as you explore the unique biodiversity, rich history and vibrant culture of this country which is the gateway to South America. Quickly find your destination with the aid of a user-friendly index of cities and towns. Then plan your route using the mapped road network, complete with distances and designations for major and secondary roads, including the Pan-American Highway, as well as tracks and unsurfaced roads for those seeking to travel off the beaten path. Other travel network features include airports, airfields, railroads, harbors and border crossings. In addition, hundreds of cultural, historical, ecological and recreational points of interest are pinpointed, such as UNESCO World Heritage Sites, protected areas, beaches, archeological sites, castles and areas for diving, fishing, surfing and paragliding. The map's front side covers the country from northern borders with Venezuela and Panama, along with its Caribbean Sea coastline, through the coffee plantations in the Andes, down to the capital of Bogota, including the cities of Cartagena, Medellin and Pereira. While the reverse side covers the southern half of the country, through the cities of Cali and Popayan, to its Amazon region and southern borders with Peru, Ecuador and Brazil. The entire Pacific coastline is covered as well, along with Colombia's islands. With such an abundance of specialized content, along with its topographic features, this map is the perfect compliment to any guide book to the country. Every Adventure Map is printed on durable synthetic paper, making them waterproof, tear-resistant and tough capable of withstanding the rigors of international travel.
