I'm studying French right now at my university, and have found grammar and the conjugations extremely difficult to remember. This is a compact yet thorough book that you can read on the subway or before you go to bed (like myself, lol). Everyone who's studying this beautiful language absolutely MUST purchase it.It came fairly quickly and was packaged well. It's a hard-cover so won't damage quickly. The pages are intact and clear and simple to understand.2 of
