Hideo Kamimoto : Complete Guitar Repair before purchasing it in order to gage whether or not it would be worth my time, and all praised Complete Guitar Repair:

2 of 2 people found the following review helpful. An oldie but goody By Florida luthier I always wanted this book. The author is a master guitar maker and this book is full of useful information and some outdated information but still relevant to the guitar making craft. The price was very reasonable and I am going to hold on to this book for future reference. It arrived on time and I don't think it will ever be completely outdated. This book is in remarkable condition considering how old it is. 0 of 0 people found the following review helpful. Three Stars By Aubrey C Holmes SR. Book information is a little complicated 0 of 0 people found the following review helpful. Five Stars By handibme Just what he wanted

(Music Sales America). This volume presents absolutely everything that any guitar repairman, player, builder or owner needs to know about the proper care of every kind of guitar. It covers the repair, set-up, restoration and construction of acoustic and electric guitars, and includes hundreds of diagrams.
