I do not particularly like the authors' approach to teaching the Spanish language and culture. The accompanying materials seem like a lot of money for rehashed information and, at times, disorganized chapter structure. The accompanying workbook lends itself to rote memorization and regurgitation, not a more natural way to learn a foreign language. There are other materials out there, and I'd say they were the better investments for learning Spanish. 0 of 0 people found the following review helpful. One Star By kannanuth It was a bad book.
