**Not Available : Concise Oxford American Thesaurus** before purchasing it in order to gage whether or not it would be worth my time, and all praised Concise Oxford American Thesaurus:

1 of 1 people found the following review helpful. Money Well SpentBy EmilieThe thesaurus was "Brand New" as described. It contains an abundance of synonyms as well definitions and explanations of the words in a social context (and this was a very welcomed surprise). This was far more than I expected.The delivery was prompt and arrived a day ahead of schedule - which was fantastic! All in all, an excellent experience.2 of 2 people found the following review helpful. Good ThesaurusBy karenrzMy 12 year old son also has the Oxford dictionary. I bought him heavy duty reference books because the cheap paperback dictionaries and thesauruses did not always help him in his Language Arts work. We did not want to rely on electronic on-line versions of these books and wanted our son to learn how to use a traditional dictionary and thesaurus. We hope that these hard-covered books will last through college!1 of 1 people found the following review helpful. All you could want to know about wordsBy value manVery thorough, over 900 pages, plus extra sections on grammar, sentence development and writing rules with numerous tips . Excellent resource for student and writer.

This new thesaurus is an essential tool for everyone who needs to write quickly, clearly, and well. A convenient and complete thesaurus for school, work, and home, The Concise Oxford American Thesaurus includes more than 15,000 main entries and over 350,000 synonyms, sample sentences and phrases for virtually every sense. Synonym Studies that show the subtle differences in meaning among a group of easily confused words are included, as well as the Oxford exclusive Language Guide, with information about grammar, usage, punctuation, frequently misspelled words, and much more. All Oxford American dictionaries use an easy-to-use respelling system to show how entries are pronounced. It uses simple, familiar markings to represent common American English sounds.

From Booklist Those looking for just the right word will find more than 15,000 entries and 350,000 synonyms and antonyms in this resource based on the Oxford American Writer's Thesaurus (2004). The "Word Notes" that helped make the original so enjoyable are gone, as are the tables of various kinds of cocktails, gemstones, etc. What's left is a sound, basic thesaurus, a good companion to Concise Oxford American Dictionary (see above).
