Mark Harrison : Contemporary Music Theory - Level One: A Complete Harmony and Theory Method for the Pop and Jazz Musician before purchasing it in order to gage whether or not it would be worth my time, and all praised Contemporary Music Theory - Level One: A Complete Harmony and Theory Method for the Pop and Jazz Musician:

0 of 0 people found the following review helpful. My purpose in buying the book was to become better at improving and to understand the theory behind the ...By T'ai Chi LadyThis book has a lot of terminology and is full of music theory background. My purpose in buying the book was to become better at improving and to understand the theory behind the music. This book did not help much with actually improvising but book 2 did and I'm sure this background material was necessary. I really did like the exercises with answers at the end of each chapter.0 of 0 people found the following review helpful. Five StarsBy CustomerGood0 of 0 people found the following review helpful. thank you for a chance to learn!By RubyI believe after ALL these years I am finally going to learn and understand music. Mark Harrison makes you do the work in such a way you have no choice but to learn. I have only completed a few chapters but am very excited to complete all three levels in his series. I really believe I'll be able to "play" and not just memorize a song.

(Piano). The Music Theory series is designed from the ground-up to explain the terminology and musical structures needed for modern applications. Level One is an introductory course which covers music notation, key signatures, basic scales, intervals, modes, diatonic relationships and 3-and 4-part chords. Level Two is an intermediate-level course covering larger chord forms, "definitive" chords in major and minor keys, substitutions, analysis of key centers in tunes, "upper structure" chords, voiceleading, and pentatonic and blues scale applications. Both levels include reference appendices, a complete glossary of terms, and hundreds of written theory exercises with answers.
