Kim Potowski : Conversaciones escritas: Lectura y redaccin en contexto (Spanish Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Conversaciones escritas: Lectura y redaccin en contexto (Spanish Edition):

0 of 0 people found the following review helpful. Good book but how did it get so expensive.By JoseAlthough some of the topics and the content is a bit outdated, it does a decent job of connecting the grammar part of the course with its cultural context. The author obviously spent quite of bit of time on the topics discussed.I bought the book two

semester ago and everywhere it was at half the price. i dont see why the author needed to jack up the price on us students. At \$50 it is a good book but at \$115+ it is too expensive. Where is my \$65 going to? Books don't fluctuate that much on price at least not on the same edition. I dont know i just feel value isn't there for the price.0 of 0 people found the following review helpful. ... am an avid user but I am so disappointed with this productBy Christine Vilar do I am an avid user but I am so disappointed with this product. I am a college student that has used e-books many times, I have had the worst experience using Kindle for this book. Everytime I try and go to the next page, it takes me back to the top of the previous page. I will not use Kindle again until has fixed this issue.0 of 0 people found the following review helpful. The assigned readings are good, but the explanations are too wordy disorganizedBy CustomerHad too read this book for one of my classes. The assigned readings are good, but the explanations are too wordy disorganized. The book does not provide many examples. Not the best way to learn....
