Very nice coffee table book, but other than that, there's not much of a use for it. It has website information to buying all the products. So basically it's a picture book of what kinds of "green" things are out there. 0 of 0 people found the following review helpful. Five Stars By Cate Smith Used for Thesis Research. 0 of 0 people found the following review helpful. A+ product and transaction. By Mary Alvarez I was amazed with the photographs and creativity of people who recycle. A good coffee table book but packed with inspiration.
