Although I found slightly below "resume magic" it still an excellent reference to write cover letters.All aspects of building a cover letter are covered in a progressive manner. The task of writing is therefore a lot easier. Examples are very good, and the author did a very good job leading the reader through the task of writing a cover letter.In the end this book will definitely help you come up with strong, well structured and well written cover letters.A must have for every job-seekers or just any professional.0 of 0 people found the following review helpful. Great Job Search and Application processBy Raquel Aceves PadillaWonderful tool to polish your introduction at Head Hunters and Recruits. Found very useful, helpful, and fully interesting for any Career Job
