As someone considering a late in life career change, this has given me the courage to forge ahead and make that leap!1 of 1 people found the following review helpful. Finally, a real blueprint for interview success.By CustomerThis book is so head and shoulders beyond anything I have ever read on this subject. Gave me a plan, huge edge, and exact way to approach things. Also taught me I had much more to offer than I thought I did. Put me at ease and got me the job finally1 of 1 people found the following review helpful. HelpfulBy IndigoA short, concise read for anyone looking to ace an interview.While the author promises good tips for the reader, what I got was a sense that the tips were very similar to many out there. Of course, it is the practice, and not words in a book, that counts.Hence, I will still recommend people to take a look at this book, for the tips are indeed timeless and supported with examples.*I got a free copy in exchange for an honest review from NetGalley
