Princeton Review : Crash Course for the New GMAT, 3rd Edition: Revised and Updated for the New GMAT (Graduate School Test Preparation) before purchasing it in order to gage whether or not it would be worth my time, and all praised Crash Course for the New GMAT, 3rd Edition: Revised and Updated for the New GMAT (Graduate School Test Preparation):

1 of 1 people found the following review helpful. Good Supplement to Your Study RegimenBy Eileen WThis is good

only as a supplement to your studies. It's small, so it's easy to fit in my purse and study on-the-go. However, I would not recommend this as your only book to get ready for the GMAT. Also, since the book is small, the type is smaller than normal (but it's still fine). The book itself is useful and easy to navigate with sections that make it easy to memorize different formulas and rules. 1 of 1 people found the following review helpful. Big help for the GMAT By Nicole With about two months before taking the GMAT, I purchased this book to facilitate my studies. It is not a large, overwhelming, 200 page book I expected it to be, but that was actually good. It provides useful tips on how to approach the test and types of questions. It also includes tips on the new Integrated Reasoning section. I would suggest using this book in conjunction with the GMATPrep Software and other practice questions. 0 of 0 people found the following review helpful. Small but useful if your eyesight is great By Customer Initially we thought we were getting a bigger-sized book. The print is very difficult to see unless you've got perfect eyes- not fully satisfied

10 Simple Steps to a Higher Score in Less Than 1 Week! Crash Course for the New GMAT, 3rd Edition is designed for the student who has put off studying until the last minute. It details the most critical tools and rules students need to get a good score with only limited prep time, and includes: 10 strategies you can quickly learn to conquer the GMAT Practical and up-to-date information on the what, when, where and how of the next generation GMAT Thorough reviews of all Verbal and Math topics A comprehensive overview of the all-new Integrated Reasoning section Dozens of practice questions with comprehensive answer explanations to help you master key techniques
