**Debbie Hartsog : Creative Careers in Fashion** before purchasing it in order to gage whether or not it would be worth my time, and all praised Creative Careers in Fashion:

2 of 2 people found the following review helpful. GenericBy Fashion FrenchieThis book proved to be one of the same old same old. It contains only marginally interesting tips and suggestions for pursuing a fashion industry career. Maybe your money would be spent better on a larger, more expansive version.1 of 2 people found the following review helpful. Creative Careers in FashionBy gardenswimmerMy niece and I selected this book for her home schooled course in Fashion. She is a high school senior and considering a career in fashion. This book has a readable

style and is full of useful information about the nuances of the various careers in fashion. She's finding it very helpful in narrowing down her particular interests. A tremendously useful book for anyone interested in developing a career in the fashion industry. 0 of 1 people found the following review helpful. Basic Information By Courtney I have been considering a career in fashion and not knowing anything about the different fields in fashion I found this book helpful, but that was it. It provided descriptions of different jobs in fashion with brief interviews of people either currently or previously in a certain position. The book was more factual than anything else.
