**Sean Lee Levin : Crossovers Expanded, Volume 2** before purchasing it in order to gage whether or not it would be worth my time, and all praised Crossovers Expanded, Volume 2:

5 of 6 people found the following review helpful. Couldn't wait to read these books as soon as I heard about them!By Charles LoridansI loved reading both volumes of this book.Beautiful covers and fun scans inside.Books, tv shows and movies, all with connections to each other.Absolutely stuffed to the brim with all the stuff I love!!!So many crossover stories I did not know existed, and the info given is just enough to whet my appetite to buy and read a lot of these stories.Sean gives each entry just the right amount of description without spoiling it.He picks up seamlessly where his

mentor, friend and predecessor Win Scott Eckert left off. These volumes patch together the most amazing universe of stories and characters. Anyone running a Call of Cthulhu, Pulp Adventure or Steampunk RPG campaign would get a lot of use out of these tomes! Read it through like a novel, or just pick a page and fall down a rabbit hole of fun. Highly recommend!!!! 2 of 2 people found the following review helpful. Inevitably this led me to Philip Jose Farmer's World Newton Universe and the excellent crossover-studying work of Win Scott Eckert. By Adam Bezecky I first got into crossover stories by way of The League of Extraordinary Gentlemen, by Alan Moore and Kevin O'Neill. Inevitably this led me to Philip Jose Farmer's World Newton Universe and the excellent crossover-studying work of Win Scott Eckert, Jess Nevins, Dennis Power, Rick Lai, and many others. Sean Lee Levin's Crossovers Expanded exposes and explores even more stories featuring heroes and villains from all eras of history, from Modesty Blaise and Emma Peel to Tarzan and Doc Savage. This second volume has an addendum talking about stories that don't fit into the crossover "canon" (a loose term, to be sure) that nonetheless show that humanity is inherently built on collaboration and homage. 2 of 2 people found the following review helpful. ... of Crossovers Expanded and Sean Levin does the same great work he did in the first. By Customer This is the second volume of Crossovers Expanded and Sean Levin does the same great work he did in the first.

From the mid-Twentieth Century, when a shadowy vigilante teamed up with Nick Carter; Hawkman worked with Sherlock Holmes; an avenging hero battled Dr. Karl Walden and Countess Lilya Zarov alongside the Domino Lady; the Nyctalope, Sal Paradise, Dean Moriarty, and Frank Reade's granddaughter fought giant ants in the Nevada desert; the Shadow, the jungle lord, Bulldog Drummond, and a bronze-skinned, golden-eyed pulp hero had dinner at Nero Wolfe's brownstone; Judex battled Freddy Krueger; Honey West and T.H.E. Cat solved two cases together; Captain Action and the Black Bat teamed up in Japan; Carl Kolchak met the descendants of Doctor Moreau's creatures, as well as the Time Traveler; Lupin III matched wits with Fantmas' grandson; the Ghostbusters fought the Phantom of the Opera and the Deep Ones; and Vampirella met Buffy... ... To the Twenty-first Century, when Lara Croft visited Shangri-La; Angel and company battled a Kandarian demon; Harry Dresden encountered a shoggoth; the Danger Girl team joined forces with Ash Williams and G.I. Joe; Cassie Hack and Vlad went up against Edgar Dill, Victor Crowley, Jason Voorhees, and Dexter, and teamed up with the Living Corpse, Mercy Sparx, and Eva; the Phantom and Captain Action had a mission together; Cal McDonald met the Frankenstein Monster, the Goon, and the vampires of Barrow, Alaska; Witchblade and Red Sonja crossed paths; the Phantom and Mandrake defeated a pair of rogues; Dick Tracy found a missing Little Orphan Annie; Remo Williams and Batman fought the Joker; and Fox Mulder quoted his good friend Dale Cooper... ... To the far-flung future, when crews of the starships Enterprise had transdimensional encounters with the Planet of the Apes, the Legion of Super-Heroes, and the Doctor... With a new Foreword by William Patrick Maynard (author of the highly-regarded continuation novels featuring Sax Rohmer's classic character, Doctor Fu-Manchu), Crossovers Expanded, Volume 2 also includes many book and magazine covers, as well as an appendix covering a myriad of alternate universe tales, parodies, and farces which don't fit into the primary Crossover Universe continuity.
