**Mary B. Nemnich, Fred Edmund Jandt : Cyberspace Resume Kit: How to Make and Launch a Snazzy Online Resume** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cyberspace Resume Kit: How to Make and Launch a Snazzy Online Resume:

2 of 2 people found the following review helpful. Not enough useful information By Sara Benson If you're looking for a good book on how to write a compelling resume and prepare it for online use, I recommend you look elsewhere. While this book covers resume creation, as well as online format information, these sections are too slight to really help you write an effective resume, cyber-focused or not. The authors seem more interested in technology (OCR, resume software) and offbeat career search areas (government retirees, for example) than resume content. While the more recent edition of this book may have more up-to-date job site listings (and the rating system is good), the listings in

this edition are already out-of-date. For a better book on resume writing that also covers much of the cyber territory, try Resumes for Dummies. 5 of 5 people found the following review helpful. Essential instructions for resume posting on the Internet. By A Customer The authors explain in clear and non-techno babble prose, the steps and concepts behind making use of the Internet for conducting a career search and sending out your resume. I especially appreciated their listing of some of the better and most worthwhile resume database sites to submit resumes to and look for job postings on. Essential driving guidance to have in this "information superhighway" age! 0 of 6 people found the following review helpful. Everything I needed! By A Customer A lot of good info I haven't seen before

Shows how to take advantage of state-of-the-art Internet features that have revolutionized job searching. Using numerous resume samples, timesaving hints, interviews with industry insiders, the authors take you through the online resume creation distribution process. Paper.
