The trails have been enhanced, and road and trail mileage have been added to create a map that is an essential guide for the area. Waterproof | File size: 36.Mb

**National Geographic Maps - Trails Illustrated : Death Valley National Park (National Geographic Trails Illustrated Map)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Death Valley National Park (National Geographic Trails Illustrated Map):

5 of 5 people found the following review helpful. A Good Map...but Not Necessarily Needed By Mary G. Corson The fact that this map has been coated makes it easy to use. Certainly for hard-core hikers, this map would be a 5. However, the free map given out at the Death Valley Visitors' Center in many ways was easier to use and had better information about the national park. The casual visitor or the hiker doing the basic trails would not need this map. 0 of 0 people found the following review helpful. This is a map masterpiece. I could go on ... By John Mirowsky This is a map masterpiece. I could go on and on about the quality of information and illustration, but I will spare you that. If you are going to Death Valley, this is the one to get. For serious 4x4 plans, also search for and download the free pdf map of "Death Valley Backcountry Roads." Together they will get you into (and out of) the most remote trails. Equally important, they mark the tough spots you should think long and hard about trying. For those, I suggest YouTube videos of trucks trying to get through. Know your limits. 1 of 1 people found the following review helpful. Loved this map By dfries In Death Valley, we had a mantra that you could never have enough water, gas and access to this map. Loved this map! It gave us plenty of detail both when planning and when actually on the trip. GPS isn't reliable in the valley, but this map ALWAYS was. Great topographic features, additional information regarding road conditions and highlighting of important sites. I liked that it was tear resistant - it held up to our abuse on our journey. I'll surely save it for our next trip to Death Valley - for we'll certainly be going back!

Waterproof Tear-Resistant Topographic Map Despite its foreboding name and the fact that it is the hottest, lowest, and driest area in North America, Death Valley National Park maintains a great diversity of life in its dramatic terrain of salt-flats, canyons, mountains, valleys, sand dunes, and badlands. National Geographic's Trails Illustrated map of Death Valley National Park delivers unmatched detail and valuable information to assist you in your visit to this land of extremes. Expertly researched and created in partnership with local land management agencies, this map features key areas of interest including Badwater Basin, Furnace Creek, Scotty's Castle, Panamint Springs, and Stovepipe Wells. With miles of clearly marked trails that include mileages between intersections, this map will prove invaluable in your exploration of the park. A list of backcountry roads and trails complete with descriptions, lengths, and starting points will help you choose a route that's right for your activity level and recreation use. The map base includes contour lines and elevations for summits. Hot weather tips, a temperature chart, regulations, and safety suggestions are included as well. Every Trails Illustrated map is printed on "Backcountry Tough" waterproof, tear-resistant paper. A full UTM grid is printed on the map to aid with GPS navigation. Other features found on this map include: Amargosa Desert, Amargosa River, Badwater Basin, Bare Mountain, Black Mountains, Cottonwood Mountains, Death Valley, Eureka Valley, Funeral Mountains, Gold Mountain, Grapevine Mountains, Greenwater Range, Inyo Mountains, Inyo Mountains Wilderness, Inyo National Forest, Last Chance Mountain, Nelson Range, New York Butte, Owens Lake, Owens River, Owl'shead Mountains, Panamint Range, Saline Valley, Sarcobatus Flat, Searles Lake, Telescope Peak, Towne Pass, Tucki Mountain, Ubehebe Peak. Map Scale = 1:165,000 Sheet Size = 37.75" x 25.5" Folded Size = 4.25" x 9.25"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
