**From Hearst : Delish Cooking School: Learning to Cook Step-by-Step** before purchasing it in order to gage whether or not it would be worth my time, and all praised Delish Cooking School: Learning to Cook Step-by-Step:

0 of 0 people found the following review helpful. Great BeginningBy Crazy88Line CookThose looking to start a library of cook books could do well by starting with this one. Not particularly for advancedhome cooks; it does provide a solid starting platform for the ambitious beginner. Everything is easy to read-no tinyprint-and follow, especially with the numerous visual cues included. A pretty broad range of things are covered fromstarters to desserts and while some are a bit dated; Beef Wellington...the Thai fish dish on the following page makesup for it. An added bonus with this book is the last section that deals with cooking with kids. Most cookbooks not specificallymarketed for kids have nothing for youngsters who might want to learn a few simple basics along with a parent or adult and healthful eating starts in the home kitchen at an early age.The book makes a great gift as it is affordable but you may want to be a bit cautious with the binding as mineproved a bit delicate.0 of 0 people found the following review helpful. Amazing book! I collect cooking books as a hobby ...By IKAmazing book! I collect cooking books as a hobby

and this book is standing out with its teachings, quality of information, and recipes. It is a classic master piece to have if cooking is your passion. 0 of 0 people found the following review helpful. I like the book and would buy it again.  
By Sanaa Mironov  
I read this book a long time ago to teach myself to be a cook. I ordered this for a friend's graduation. She was not a cook, I like the book and would buy it again. Maybe buy it for myself and reread it.

Delish Cooking School is in session! The very first cookbook from delish.com not only presents 450 fabulous triple-tested recipes; it's also a complete cooking course.

About the Author
