El Diccionario panhispnico de dudas es un diccionario de carcter normativo, esto es, se trata de una obra que orienta sobre el buen uso del espaol, el ideal de mxima correccin al que un hablante tiende en situaciones formales de comunicacin. El Diccionario panhispnico de dudas se basa en el uso real del espaol y, por ello, todas las impropiedades y recomendaciones se ilustran en l con ejemplos extrados de textos reales procedentes en su mayora de los bancos de datos de la RAE. ENGLISH DESCRIPTION The Panhispanic Dictionary of Doubts guides users throughout the proper use of the Spanish language. It provides recommendations presented with examples that have been extracted from real texts originating from the databases of the Real Academia Espaola. It is a work conceived from all the Hispanic countries, which maintains a fundamental balance between the variety of a languages spoken in so many different regions, and the linguistic unity that must be preserved. In short, it gives clear answers to the doubts of those who worry about speaking and writing Spanish correctly. It is the most comprehensive and updated usage dictionary.
