Berlitz Guides : Dictionary of American English before purchasing it in order to gage whether or not it would be worth my time, and all praised Dictionary of American English:

This monolingual dictionary helps of English develop basic vocabulary. It includes 15,000 entries , each with a clear,

sample sentence using the word in context. The Berlitz Dictionary of American English also features black-and-white illustrations and full-color pages that teach word families, includes rooms in the house, business terms, and emotions. Usage notes provide important cultural and grammatical information. The bonus CD-ROM allows users to type a word, read the definition, hear the word, and read sample sentences in which the word is used. Full-color photos and drawings provide a visual representation of more than 2,000 words.

About the AuthorIn January 2003, the renowned Berlitz Publishing became part of the Langenscheidt Group.
