1 of 1 people found the following review helpful. Informative By Gemstone The book gives plenty of information on demons and their origins. It also sheds light on some of the grey areas that some myths and legends are based on. It's good for writers who want some basic info on demons and possible legends to start with. 0 of 1 people found the following review helpful. Five Stars By Keith Warren As described thanks 10 of 11 people found the following review helpful. excellent content By Kenji_Aishia This book is a magnificent resource book and is more an encyclopedia than a dictionary. Fred Gettings supplies a fantastic introduction that includes information on the content of the book, info. on some influential figures in middle aged to modern occultism, some basic occult principles and history. The dictionary itself includes not only a huge amount of angels, demons and other spiritual creatures/entities but lists other names they are known as, what they may do and what literature they are mentioned in. Also, the dictionary has information on various occult practices such as necromancy, geomancy ect. And info. on leading occult figures and many occult terms. This book serves as not only an excellent resource for the learned occultist but as a book for beginners to learn many occult terms and some history.
