John Montgomery : Dictionary of Maya Hieroglyphs before purchasing it in order to gauge whether or not it would be worth my time, and all praised Dictionary of Maya Hieroglyphs:

0 of 0 people found the following review helpful. Four Stars By streamwhuddlegood1 of 1 people found the following review helpful. very useful By galai I am doing research on mayan epigraphy and this book has been very useful. The graphics are really good and the translation very full. Brilliant. 1 of 2 people found the following review helpful. Simply great to understand the maya writings By Miguel A. Guzman Garcia It is a very well done book. I'm a writer too, and

was extremely useful in understanding the actual translate options. The Mayans were a vast empire before the conquest and this book helps to really understand their art. It was sent to me very soon also.

This authoritative work is the first visual dictionary of Maya glyphs published since the script's complete deciphering, offering a much-needed, comprehensive catalogue of 1100 secured glyphs. Each entry includes the illustrated glyph, its phonetic transcription, Mayan equivalent, part of speech, and meaning. About the Author John Montgomery was an illustrator, epigrapher, writer, and PhD candidate in the field of Pre-Columbian Art at the University of New Mexico. He taught art history at the South-western Indian Polytechnic Institute in Albuquerque. A long and varied experience in Central America first inspired his interest in the ancient Maya. His glyphic illustrations are based on a lifetime of involvement with Maya glyph decipherment.
