Wish it had a little more prefixes and suffixes and word roots. It has none, but is still very useful. If you don't like looking up or Googling words for class, you'll need this. There are a few words I couldn't find. So you can always buy/ rent a PDR, if needed. Also I would suggest The Medical Terminology The Body (Quick study Academic). It's a life saver. You will save so much time and effort and it's all under \$20, total.... even w/ 2 day shipping.
