Excellent Tool for Intermediate to Advanced French Students By Matthew Henderson The Larousse "Dictionnaire du Francais d'Aujourd'hui" is a dictionary completely in French geared towards those who are not yet fluent. It is designed "for learning and mastering the French Language". It is a wonderful practice tool if you have at least a couple of semesters of French under your belt. Whereas many French/English dictionaries simply provide the closest available English word for any given entry, the spelled out definitions here clarify the meaning of a word where it might subtly differ from the closest match in our language. The fact that it is in French provides extra practice and reinforcement for the student. While it is by no means a 'pocket' dictionary, it is small and light enough to be easily portable in a backpack.

Suitable for users at the middle school level and up, this in-depth dictionary will not only build vocabulary but also encourage correct usage through detailed notes and instruction all in a clear, easy-to-navigate format. Perfect for everyday use, this dictionary contains more than 40,000 words and phrases features etymologies, examples, synonyms, and antonyms for each definition is packed with helpful usage notes and hints on such topics as how to avoid confusion between homonyms and how to escape common spelling pitfalls includes an extensive appendix with guides to grammar, pronunciation, conjugation, prefixes and suffixes, and Greek and Latin roots features a list of the most common French proverbs and their meanings In short, it's a feature-packed guide to the French of today, in a durable format that will appeal to a wide range of users.
