National Geographic Maps - Trails Illustrated : Dinosaur National Monument (National Geographic Trails Illustrated Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised Dinosaur National Monument (National Geographic Trails Illustrated Map):

0 of 0 people found the following review helpful. Use frequently when visiting D. N. M.By Vladimir ImpalerExcellent map; should be the "go-to" place for information on getting around Dinosaur. It showed trails I did not know about previously, and have added to my "bucket list". Watch the weather closely when you travel in/around Dinosaur. Many trails can become impassible during and after a rain event. Things often dry out quickly, but you could be stranded for a bit until they do dry out.0 of 0 people found the following review helpful. Five StarsBy Henry S. TaylorVery good map, on time.0 of 0 people found the following review helpful. Good mapBy C. MelleGot this map so that I can take my daughter camping. It is a good map but lacks some desired detail - like names of dirt roads and trailheads.

Waterproof Tear-Resistant Topographic MapNational Geographics Trails Illustrated map of Dinosaur National Monument, which straddles the state lines of northwest Colorado and northeast Utah, is the perfect recreational map for this stunning monument. Within its craggy hills, you can discover pieces of a long ago world where the largest land creatures of all time once roamed and died. Expertly researched and created in partnership with local land management agencies, this map features key points of interest including Dinosaur Quarry, Red Fleet State Park, Canyon of Lodore, Harpers Corner, and the town of Dinosaur. The map also highlights many popular routes for scenic driving including Dinosaur Diamond, Harpers Corner, Tour of the Tilted Rocks, Browns Park, and Jones Hole. This map features detailed topography with shaded relief, elevations, easy-to-read trails, and clearly defined, color-coded boundaries for parks, wildlife study areas, public lands, and areas of critical environmental concern. Information about the region, its history and culture, geology, and natural history are provided as well. Those exploring by boat will appreciate the inclusion of river campsites, river mileage and access points along the Yampa and Green rivers. Other recreation features noted include campgrounds, boat launches, interpretive trails, fishing access, scenic viewpoints, and visitor centers. Every Trails Illustrated map is printed on "Backcountry Tough" waterproof, tear-resistant paper. A full UTM grid is printed on the map to aid with GPS navigation. Other features found on this map include: Canyon of Lodore, Diamond Gulch, Dinosaur, Douglas Mountain, Split Mountain, Yampa River. Map Scale = 1:75,000 Sheet Size = 25.5" x 37.75" Folded Size = 4.25" x 9.25"

About the AuthorFounded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
