Dorotheos of Gaza : Discourses and Sayings (Cistercian Studies) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Discourses and Sayings (Cistercian Studies):

The things written by St. Dorotheos, though written to his fellow monks 1500 years ago, could easily have been written for a sermon preached in any Christian church this Sunday. I would highly recommend this book, and its suppliers, to anyone. 9 of 9 people

By Anthony A. Boyadjis
Simply put, this work is a life altering, thought-provoking series of essays suitable for anyone of any religion seeking a discussion of topics such as humility, the need for a spiritual mentor, treating your neighbors, etc. Written in a very accessible and almost conversational style, despite the work having been done in the mid 6th century, the piece is a must for any thinking person.

By A Customer
It simply doesn't get any better than this. If one is really interested in theosis (Greek = the personal transformation involved in "putting on Christ"), look no further. This is THE book that I keep going back to for motivation in maintaining a spiritual discipline.

A shrewd observer, a master psychologist, an accomplished raconteur, Dorotheos is also a learned man with a prodigious capacity for assimilating in an organized harmony the wisdom of his predecessors in the life of the Spirit. Yet he is far more interested in humbly serving his brethren than in discoursing about the recondite aspects of the hesychast experience. His genial candor makes him the ideal spiritual master to introduce modern readers to the rich spiritual universe of the deserts of Egypt, Palestine, and Syria.

. . . no text I know renders the ascetic spirit more accessible to the modern reader.
