Olivia Evans : Discoveries and Inventions (Encyclopedia with Flaps) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Discoveries and Inventions (Encyclopedia with Flaps):

0 of 0 people found the following review helpful. Wonderful fun By Sandra M. Hathway My grandchildren (boys/girls) love this book, as do I. No young ones around? Buy it for yourself. You won't believe how much you don't know. Enjoy, Sandy

While most encyclopaedias are traditional text editions, our new fantastically designed encyclopaedias promote learning by stimulating a child's natural desire to explore. Encyclopaedias with flaps break the mould by presenting the information through bright funny illustrations and informative flaps which transport children to unique worlds - from great inventions to the inside of the Earth - in which every event and object is linked to exploring a child's natural curiosity of the "how" and "why" of their world. Eye-catching illustrations, easy and simple texts broaden a child's knowledge of each topic; action-oriented flaps of all shapes and sizes to flip encourage exploration; designed to stimulate children's natural curiosity and challenge them to learn more about their world.

From the Inside Flap While most encyclopaedias are traditional text editions, our new fantastically designed encyclopaedias promote learning by stimulating a child's natural desire to explore. Encyclopaedias with flaps break the mould by presenting the information through bright funny illustrations and informative flaps which transport children to unique worlds - from great inventions to the inside of the Earth- in which every event and object is linked to exploring a child's natural curiosity of the "how" and "why" of their world. Eye-catching illustrations, easy and simple texts broaden a child's knowledge of each topic; action-oriented flaps of all shapes and sizes to flip encourage exploration; designed to stimulate children's natural curiosity and challenge them to learn more about their world. About the Author We create and produce innovative interactive books for toddlers to children ten years of age. Our books are ideally suited for translation into a range of different languages. We have the creativity, capacity and knowledge to meet the most demanding requirements.
