**Dominic Beddow : Discovering Glasgow: The Illustrated Map Collins (Collins Travel Guides)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Discovering Glasgow: The Illustrated Map Collins (Collins Travel Guides):

Sundry This map is a fairly good scale (1:5600, 11 inches = 1 mile) and encompasses a convenient amount of territory. Location of Scotrail stations are provided as well as the subway stations. On the backside is a small map of "further out" (1 inch = 1 Km) as well as a somewhat enlarged scale map (1:3330, 19 inches = 1 mile) of the downtown center. There are fewer pictures of buildings here so this may be more useful. The back also provides a key for streets, sights, hotels, shops, pubs, eating out. Couple of problems that decrease its star value for me: 1) made of paper that will tear (and I assume can get wet). I would have preferred plastic infused or laminated so that none of the 8 creases will tear. 2) The large, front side map provides pictures of downtown buildings that a tourist might be interested in. However, these are larger in scale than the streets. A building picture might consume 2-3 blocks. That makes it difficult to easily read street names and plan routes as many of Glasgow's streets are one-way. 0 of 0 people found the following review helpful. Five Stars By Richardson Detailed and easy to find specific places. 0 of 0 people found the following review helpful. Four Stars By mtepp very handy, for travel

Glasgow, host of the 2014 Commonwealth Games, is on the itinerary of many visitors to Scotland. This brand new map displays delightful watercolor mapping, with individual paintings of all the main sights and landmarks in the city.

About the Author Dominic Beddow produces informative maps of cities from Amsterdam to Zanzibar. His Collins Discovering London map was his first big project. Commissioned way back in 1987, it is now in its 10th edition.
