Though I have been trying to train it to sit, and sometimes I say Fluffy sit so I know the truth that combining commands with the dogs name has it confused. I corrected myself and now he sits just fine when told to. When teaching Fluffy to sit, things didnt work out as smoothly as described in the book. Instead of his head moving up and butt going down, he would jump at the treat. So I would just press his butt down and make him sit. :D Still working on that. Surprisingly the quiet command worked out much easier. Cheers for these 95% successful dog training tips, much appreciated. They really worked for me. I think the ones that did not work, is actually Fluffys fault hes too stubborn. 1 of 1 people found the following review helpful. TIPS FOR TRAINING A DOG.
