J "NeonDragon" Peffer : DragonArt Ultimate Gallery: More than 70 dragons and other mythological creatures before purchasing it in order to gage whether or not it would be worth my time, and all praised DragonArt Ultimate Gallery: More than 70 dragons and other mythological creatures:

1 of 1 people found the following review helpful. A must-buy for DragonArt's fansBy Neko-sanDragonArt Ultimate Gallery is an exquisite art collection from the talented illustrator J. "NeonDragon" Peffer. This collection feature mostly digital artwork of dragons. However, you couldn't get a most diverse group of dragons in a single lair. This is a good book that will sure find its way into the hands of J. Peffer's fans, but beware of its binding.This is mostly a book about J. Peffer's artwork. A gallery of sorts at your reach. If you are expecting an instructional book, you have many other options from the same author. However, Peffer goes her way to sprinkle a tip here and there throughout the book.This book contains a lot of new imagery, but obviously you would expect to see a few from her previous books.

The easier ones for me to spot are the images from DragonArt Fantasy Characters. You'll get a full page of the Demon, the Banshee, the Wisps and the Centaurs titled "The Druid and the Dryad" in this book. There is also a framed image of the Elves title "Deep Concentration" in this book and the Fairy at 1/3 of its size, among others. There are plenty of dragons, but I figured that most were from Dragonart Evolution. The most remarkable are the two pages layout of the Lung Dragon titled "Eastern Flair", the page and a half layout of the Sea Dragon titled "Tidecaller" and a full page layout of the Feathered Dragon titled "Frostfire" which changes the hue to a bluish scheme on the left side to represent ice. And there are plenty more. What about Dragonart? Well, the original DragonArt is mostly an instructional how-to-draw dragons book. However, there it was the Kirin! It goes without saying that J. Peffer's artwork deserve five stars. Her presentation of humanoid figures lies more toward the anime side, which may not appeal to every one, but her dragons are as superb as ever. However, where this book almost loses one star is not about the art, but its binding. I try to place it flat on a table and I immediately regretted it. I could easily see the seam between some pages, which reminded me about the fate of several ADD hardcover that I still own. It may seem a bit too picky, but I expect to use this book a lot. Overall, I liked this book. If you are new to J. Peffer's artwork, browse her books in or find her art on the net. Once you are hooked, come back for this book. Other books from J. Peffer are: Dragonart: How to Draw Fantastic Dragons and Fantasy Creatures DragonArt Fantasy Characters: How to Draw Fantastic Beings and Incredible Creatures Dragonart Evolution: How to Draw Everything Dragon2 of 2 people found the following review helpful. Inspiring Artwork By Gingerbreadforest As a fantasy lover, I am a big fan of this book and find it very inspiring. I think any dragon lover would be delighted to own a copy. Unlike some of the authors other books (Dragonart, Dragonart Evolution), this is not an instruction manual to learn to draw in her style - it is a gallery of creatures. These creatures are part manga, somewhat anthropomorphic and are fantastically imaginative. All of the images have a distinct recognizable visual style and most have been digitally colored. Dragons are definitely the artists forte and in this book you will find lion faced Asian dragons, fur covered tundra dragons, feather winged flying dragons, elemental dragons and fairy dragons to name a few. You will also find at least one phoenix, griffin, unicorn and a multitude of creatures you have never imagined. All the images have a title and usually a paragraph with a brief description of the artwork. The description might also include information on publishing, commissions, or design decisions. 0 of 0 people found the following review helpful. Love Dragons? Love to Draw? Get this Book! By Preyfar This book should be a "must have" for anyone who loves to draw and loves dragon. The figures are well articulated and the NeonDragon's walkthroughs are simple, clean and easy enough to follow for both a beginner and advance artists looking to get an edge on creative designs or new inspiration. I really can not rate this book high enough.

From scales to tails, your favorite fantasy creatures in one awesome book! No one captures creatures quite like NeonDragon. Even the fastest fantasy creatures can't escape her watchful eye, and before long, she's caught them in full form glorious, unique and alive with colorful detail! This book is packed with endless inspiration for fantasy lovers and myth mavens of all ages. From dragons and dryads to gryphons and mermaids, this book gives you all of NeonDragon's best beasts (or beauties, depending on your point of view). Take a peek and see for yourself. Inside you'll find more than 70 fierce and fiery creatures you can study up-close, in their natural habitats. NeonDragon also shares her best tips, techniques and insights so you can borrow from her creative process to make your own fantastic creatures. She even shows you initial sketches and details shots along with information on the tools she uses. DragonArt Ultimate Gallery. It's like a petting zoo for fantastic beasts and mythological creatures (except without the smell, the fire and the danger of being eaten by a dragon). Let this book take you to new realms of imaginative possibility.
