Now I can teach as well as treat for the kids that come in. 0 of 0 people found the following review helpful. but very pleased with the product By Julie J. Took longer than anticipated to arrive, but very pleased with the product! Very well made, exceeded expectations in quality and price! Would highly recommend.

The Ear, Nose Throat chart presents a visual overview of the interconnected structures of breathing, eating hearing. Large graphics illustrate the anatomy of the ear and upper respiratory tract through cross-sectional, frontal and cellular views. Heavy gauge 3ml lamination with sealed edges and two metal eyelets for hanging makes chart highly durable.

Write-on/wipe-off with dry erase marker (not included).
