Bad in that it is a condensed map and not a full map. Not all roads are shown or labeled. Good for quick reference for main roads.11 of 12 people found the following review helpful. Great product!!By S. HibdonGreat map series. I highly recommend any state map of this type! For one that uses good old fashion paper maps, this product is for you.I also use these to confirm what my GPS says! Nothing like redundancy!! I have used the free state maps you get from welcome centers or other venues when travelling had problems with them tearing along the folds or simply wearing out. This eliminates this problem. These maps should last indefinitely with the economy tanking, I don't expect any radical changes or many new hwys to be built in the near future. However should there be new highways, these maps could easily be drawn on with any marker to modify the map. Great product well worth the \$\$!!Additionally, I am a motorcyclist that does 1-3 long distance trips a year usually solo. I have about 20+ various states worth of these maps because they are really durable, waterproof (a must on a motorcycle!) you can fold them up repeatedly to the specific section you are interested in. Space is a premium on any bike but I make room for these maps in my grip. Even if you aren't a motorcyclist, these maps are great cause they won't rip!
